

## Uniform Semi-Automatic, Top and Bottom Case Sealer

# STA-52

S E R I E S

- Most cost effective system
- Simple, reliable side drive belt system
- 2" or 3" Taping
- Fast, easy setup and adjustments
- Top mast can be raised to accommodate taller cartons
- Can use a 3 flaps closer and other options
- Heavy duty casters are standard
- Motor overload protection
- Top flap compression rollers are standard
- Heavy duty frame
- Heavy duty transmission system

### APPLICATION

The STA-52 is a modular designed uniform carton sealing machine. After the operator closes the top flaps and feeds the carton into the machine, the top and bottom flaps are simultaneously taped. There is no limit on the carton length and the machine can handle a maximum width of 20.47" and a maximum height of 23.50". Its versatility rates as one of the best in the market.

Dual side belt drives make the STA-52 well suited for a wide variety of carton sizes and shapes. Along with the 90FPM belt speed it's one of the most cost-effective case sealers in the industry.

### EXCLUSIVE STA TAPE HEAD

The patented STA taping head design is uniquely engineered to maintain consistent pressure to the tape to ensure the most secure, reliable seal possible. Our new line of interchangeable pressure sensitive taping heads are offered in a variety of tab lengths and tape widths to fit your application.

For the best results, rely on STA Proven Performance acrylic tapes, for use with your high-throughput sealing machines. Together, you have the most reliable single source tape sealing system.
